

Appeal to Senator John Kerry

Massachusetts needs jobs and real solutions. As a member of Congress' "Super Committee", Senator Kerry must stand up for ordinary people!

- **Create jobs and get people back to work!** Invest in infrastructure, green energy, education.
- **Restore fairness to the tax system.** Repeal the Bush tax cuts for incomes over \$250,000. Tax millionaires, billionaires, capital gains and speculation.
- **Hands Off Social Security.** It does not contribute a penny to the deficit and is safe for decades to come.
- **Control health care costs with Medicare for All.** Get profit-gouging corporations out of the healthcare delivery system.
- **End the Afghanistan and Iraq wars!** Bring all our troops, contractors, and money home.
- **Cut the bloated Pentagon budget.** Stop building new weapons systems and bombs we don't need. Support a cooperative, less militarized U.S. foreign policy.
